

Greetings Global Family,

As the Global Director of Humanitarian Services for the African Diaspora Union (AFRIDU), I am excited to share our division's purpose and outline our planned activities over the next six years. We recognize the significant role that humanitarian efforts play in addressing critical issues facing communities across the African continent and its diaspora.

Our Humanitarian Services Division was established to contribute to the well-being and development of Pan African communities in need. Our mission is to provide vital assistance, support, and advocacy to alleviate suffering and promote sustainable development.

Our Key Objectives:

- **Emergency Relief and Disaster Response:** Providing immediate assistance, including food, clean water, shelter, and medical care, to communities affected by natural disasters (e.g., earthquakes, floods, droughts) and conflicts. We are committed to responding swiftly and effectively to humanitarian crises, including natural disasters, conflicts, and public health emergencies. Our teams are trained and equipped to provide immediate relief, including food, clean water, shelter, and medical assistance, to affected populations.
- **Community Development:** We believe in the importance of long-term sustainable development. Our division works on projects aimed at improving access to education, healthcare, clean energy, and economic opportunities. By empowering communities, we strive to create lasting positive change.
- **Advocacy and Awareness:** AFRIDU's Humanitarian Services Division advocates for policies and actions that support vulnerable populations and promote humanitarian principles. We work to raise awareness of pressing humanitarian issues within the African diaspora and globally.

Planned Activities for 2024-2030:

- **Disaster Preparedness Workshops:** We will organize workshops and training sessions to enhance disaster preparedness and response capabilities in vulnerable communities across the African diaspora. These efforts will include distributing emergency kits and developing community-based disaster response plans.
- **Educational Initiatives:** Our division will launch educational programs aimed at increasing awareness of humanitarian principles and issues. This includes partnering with schools and community organizations to offer workshops and seminars. We also plan to support access to quality education, school infrastructure

development, and literacy initiatives to empower communities and break the cycle of poverty.

- **Healthcare Access & Services Programs:** We will collaborate with local healthcare providers and organizations to improve access to quality healthcare services in underserved areas. Initiatives may include medical camps, mobile clinics, and health education programs. Through our partnership, we plan to offer medical care, immunization campaigns, and access to healthcare facilities to improve public health and combat diseases like malaria, HIV/AIDS, and COVID-19.
- **Sustainable Agriculture Projects:** We plan to support agricultural initiatives that enhance food security and promote sustainable farming practices. These efforts will empower communities to become self-reliant in terms of food production.
- **Clean Water and Sanitation:** Our goal is to implement projects to ensure clean and safe drinking water, sanitation facilities, and hygiene education to prevent waterborne diseases.
- **Human Rights and Social Justice:** We plan to increase our advocacy for human rights, access to justice, and the rule of law to protect vulnerable populations from abuse and discrimination.
- **Disability Services:** We will provide support, education, and access to healthcare and other social services for individuals with disabilities, promoting inclusion and equal opportunities.
- **Humanitarian Innovation and Technology:** We will leverage technology and innovation to improve the efficiency and impact of humanitarian services.
- **Partnerships and Collaborations:** AFRIDU's Humanitarian Services Division is open to collaborating with like-minded organizations, governments, and individuals who share our commitment to humanitarian work. We will actively seek partnerships to maximize our impact.

We believe that by working together with compassion, dedication, and a shared sense of purpose, we can make a meaningful difference in the lives of those we serve. We look forward to engaging with like-minded individuals and organizations to achieve our common goals and fulfill our humanitarian mission.

Together, we can build a more resilient and compassionate world. On behalf of AFRIDU's Humanitarian Division, we look forward to the opportunity to work together for the betterment of humanity.

Sincerely,

HRH Queen Mother Nina Womack
